Alliant answers these questions and other important business insurance issues specifically tailored to the automotive aftermarket industry.

Insurance Solutions for Automotive Aftermarket Companies

Property | Liability | Workers Compensation | Auto

As a company in the highly specialized automotive aftermarket industry, you need an insurance broker who not only can provide the comprehensive coverage your firm requires but one that fully understands your unique business risks and can deliver the protection you need at the best possible cost.

Thanks to the buying power of the industry, Alliant delivers critical business insurance products exclusively underwritten for the automotive aftermarket industry by A Rated carriers.

Alliant has partnered with SEMA to assist in answering critical business insurance questions auto part manufacturers, distributors and retailers face on a daily basis and has streamlined the underwriting process by controlling the underwriting in house.

In addition to assisting in simplifying the underwriting process, each member company will receive a complimentary bundle of Human Resource services that are designed to help manage staff and avoid employment liability.

Contact us today to learn more about the specialized coverage's available and how you can lower the cost of your business insurance today.
